

About Me

"I am a creative and driven web designer with expertise in HTML, CSS, JavaScript, TypeScript, and Tailwind CSS. My goal is to become a skilled full-stack developer, with a particular interest in Web 3.0 and AI-driven robotics. I am dedicated to building user-friendly, visually engaging designs and constantly exploring innovative technologies to enhance the user experience. Fueled by my commitment to continuous learning and growth, I aim to contribute meaningfully to cutting-edge projects that push the boundaries of web development and artificial intelligence."
